

Dear Elyn and Staff:

Of all the contractors we employed in the building of our new home you were the best at planning in advance and promptly returning calls, creating a well thought out plan and efficient use of space, making refinements to the original plan to make it perfect, keeping within budget and not charging extra for those refinements!, and being pleasant to deal with. You've miraculously made a disorganized woman appear organized! We are especially grateful for the Lonely Chocolates. Sincerely,
Keith and Tamara
