Q: Dear Closet Lady,

I have been using large closed storage containers in my walk-in closet for my shoes, sweaters, t-shirts, and now all I see is a wall of containers and can't find anything easily. Can you help me?

A: Natalie, I find this problem very often. At least you tried to organize. One of the main principles I teach is visibility. If you can't see it you won't use it. I can help you get rid of those blind storage areas.
